

Mayor Endorses
Soundtrack To Life

CITY OF SOUTH BEND
STEPHEN J. LUECKE, MAYOR
OFFICE OF THE MAYOR

I wanted to take this opportunity to share with you the response of one of my staff members who observed the performance of the rock opera created by the “7th Floor.” Mikki Dobski, Director of Community Affairs, attended the performance at the Center for the Homeless and was very moved and entertained by the production. She appreciated the positive message and was inspired by the motivation of the members to take on this creative task.

Mikki has since shared her thoughts with a local radio station, discussing the opportunities for recording the opera, and she has also suggested that the “7thFloor” contact the Steelhead Gallery as another possible location for future performances.

This has been a win-win production. Not only was the audience entertained, informed, and inspired, but the Center for the Homeless benefits from the funds raised. I hope that you have an opportunity to work with Dave Henry and the rest of the group, and we wish them well as they continue to take this message out to the community.

STEPHEN J. LUECKE
Mayor
